

What is Prop 65?

We are really proud that we only use the safest and highest quality ingredients possible for all of our Deliciously Ella food products range; our products are all made in the UK and Europe in line with very strict European Food Standards.

Prop 65 warnings are only required under California Law. Prop 65 standards are amongst the most stringent globally and are often more stringent than even US Federal Standards.

Proposition 65 requires that businesses provide warnings to Californians about possible exposures to chemicals that cause harm. At Deliciously Ella we only ever use 100% natural ingredients in our food products, we never use artificial ingredients, preservatives or stabilisers, our decision therefore to share the Proposition 65 warning here is a standard precaution only.

“California’s Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels. We care about our customers’ safety and hope that the information below helps with your buying decisions.

We are providing the following warning for products linked to this page:

- WARNING: Consuming this product can expose you to chemicals, including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

- Note: Some products sold on this site are packaged in bottles that contain bisphenol A (BPA). For those products the following warning applies:

- WARNING: For some products sold here, the packaging may have an epoxy lining, this is used to avoid microbial contamination and extend shelf life. Some of these linings can leach small amounts of bisphenol A (BPA) into the food or beverage. BPA is known to the State of California to cause harm to the female reproductive system”
